ALLOTMENTS

Allotment Site Clearance Works *(C&E Minute 43c, 06.10.26)*

The appointed contractor has cleared approximately two-thirds of the identified area at the Raby Park Road site and removed the resulting waste from site. The area will be covered in the near future with permeable membrane to keep it weed-free until such time as resources permit clearance of the remaining third, hopefully during the 27/28 financial year. Once clear, the area will be measured, divided and offered to new tenants.

Allotment Administration

Since the last meeting, one notice to improve has been issued. Officers are also currently in the process of assigning a vacant plot and arranging a site meeting with a tenant in order to discuss plot maintenance issues.
