	Marshlands Road Allotments Mains Water Supply	CE5/58

On 21/06/22 C&E resolved to obtain a fixed price quotation at a cost of £115.20 from United Utilities for the provision of mains water to the Marshlands Road allotment site (minute 19a).

The quotation is attached. The contestable and non-contestable work would provide the meter and water supply to the boundary point at a total cost of £1,799+VAT. Prior to this installation, the Town Council would need to arrange groundworks to install pipework/tap on the allotment side of the boundary and also secure housing for the tap. The groundworks would be inspected by United Utilities prior to installation.

The Committee will need to decide whether to progress this further by committing a sum in next year's budget request and obtaining quotations from groundworks contractors.
