

VERSION NUMBER	V1
DATE & MINUTE REFERENCE	
DATE OF NEXT REVIEW	April 2024

Introduction

The Council recognises its operations impact on the environment in a number of ways and is committed to identifying, monitoring and reducing such impacts associated with its operations.

In addition, its duties enable it to protect and at times enhance the local environment both directly and by influencing others. The Council will make best use of its position and powers to do this.

The Town Council will actively promote the community to embrace environmental and sustainability initiatives.

Scope

This Policy will support the aims of the Council's Corporate Strategy and be linked to other Council policies including Quality, Equality and Procurement, which will ensure environmental considerations are central to the ethos of the organisation.

The Town Council will take every reasonable measure to comply with and promote recognised best practice.

The Town Council will aspire and move towards obtaining ISO 14001 accreditation.
