	Allotments Policy and Tenancy Agreement	CE4/43	

Keeping of Animals (Tenancy Agreement 3.10 and Allotments Policy 23.6)

During recent local authority (APSE) training, it was recommended by the trainer that the keeping of livestock on site should be prohibited. The Neston Town Council tenancy agreement currently allows the keeping of hens, although no tenants currently keep any livestock on any of the three sites. Given the information received from APSE, and also the fact that previous keeping of livestock led to issues with vermin, the Committee is asked to consider deleting 3.10 from the Tenancy Agreement and 23.6 from the Allotments Policy, thereby removing permission to keep any livestock on Neston Town Council allotment sites.
