Dear Sirs

Grit Boxes

We have 4 grit boxes on our development which have been in situ for 10 or more years and have never been used.

As a consequence the grit and salt therein has become compacted and requires removal.

Before we arrange for these 4 bins to be removed and disposed of we wonder if these would be of any use in the wider community.

Please let me know if that would be of interest.

Kind regards,

Beth Taylor  
Director
